ABDUL SUBAN MOHD ISMAIL SHAIKH

Mumbai, Maharashtra | suban14925@gmail.com | +91 7208718064 | linkedin.com/in/suban-shaikh | github.com/Suban2108 | leetcode.com/u/suban-shaikh

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience developing scalable web applications, backend services, and RESTful APIs using C++, Java, Python, JavaScript, React.js, and Node.js. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, and problem-solving, with 450+ coding problems solved on LeetCode. Experienced in database management, API development, real-time systems, and end-to-end software development, with a focus on building efficient and reliable software solutions.

SKILLS

Programming Languages: C++, Java, Python, JavaScript, SQL

CS Fundamentals: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Backend Development: Node.js, Express.js, Flask, REST APIs

Frontend Development: React.js, Next.js, Redux, HTML5, CSS3

Databases: MySQL, MongoDB, PostgreSQL, Firebase Firestore

Tools: Git, GitHub, Postman, JIRA

WORK EXPERIENCE

Frontend Developer Intern | Lonely Bag Food Rescue Pvt Ltd

Mar 2024 - Apr 2024

Mumbai, India

- Collaborated with senior engineers to build and deploy a cross-platform web application using Next.js, improving development efficiency by an estimated 25%.
- Contributed across the full development lifecycle — reducing feature iteration time by an estimated 20% — through ideation, architecture design, UI/UX, and coding.
- Implemented scalable state management and API integration practices, reducing 15+ recurring API-related issues and improving overall application reliability.
- Participated in code reviews, sprint planning, and Agile collaboration, contributing to 10+ successful sprint deliveries while improving team productivity and code quality.

Full Stack Developer Intern | Zenlogix Solutions

Sept 2026 - Oct 2026

Remote

- Designed and developed 10–20 responsive website pages using Zoho Sites, handling frontend architecture, UI implementation, and cross-device compatibility.
- Optimized website layouts, visual assets, and page structures to improve loading behaviour, responsiveness, and overall website performance.
- Contributed to backend development for an internal project, implementing application workflows and backend functionality.
- Performed functional, UI, and cross-device testing, identifying 10–20 defects and design inconsistencies while preparing detailed bug reports to improve application quality.

PROJECTS

MedBridge AI - AI Healthcare Assistant | GitHub | *(Final Year Project)*

May 2025 - May 2026

React.js, Vite, Flask, Python, OpenAI Whisper API, NLP, Pandas, NumPy, TensorFlow/Keras, PyTorch, PWA, IndexedDB

*Multi-Model healthcare AI application enabling **s**ymptom-based disease prediction and AI chatbot assistance with 14+ language support and including PWA functionality with service worker caching and offline-ready behaviour.*

- Built prediction and recommendation workflows using a medical dataset with 41 diseases, 132 symptoms, and ~4,920 records with 90% model accuracy.
- Designed and optimised REST APIs with fast response time (<50 ms for prediction and <100 ms for chatbot responses).
- Integrated multilingual voice input using OpenAI Whisper API (speech-to-Text and Text-to-Speech) with support for 14+ languages.
- Implemented Progressive Web App (PWA) features with service worker caching and IndexedDB to support offline and low-network usage.

SwapCircle - Items Barter Platform | GitHub

Nov 2024 - Jan 2025

React.js, NodeJs, ExpressJs, MongoDB Atlas, Tailwind CSS, ShadCn UI.

Web platform enabling private item bartering & donations within invite-only user circles, facilitating community exchanges & increasing user engagement by 35%.

- Engineered a private bartering platform supporting 100+ item exchanges and improving user engagement by 35%.
- Built a real-time one-to-one and group chat system integrated with barter & donation threads, enabling 100+ user interactions with reduced communication latency.
- Introduced a Karma points reward system that boosted community-driven exchanges across the platform.

CERTIFICATIONS & ACHIEVEMENTS

- **Python for Everybody -** Coursera (2024) I Credential ID : QXOIR8SGUV3L
- **Generative AI & Prompt Engineering -** Udemy (2025)
- Ranked among the top 50% globally in LeetCode Weekly Contests, solving **450+ problems** in algorithms and data structures using C++ with object-oriented design patterns.
- Earned **5★** in C++ on HackerRank for proficiency in algorithms and object-oriented programming.

EDUCATION

B.E. in Computer Engineering

2022 - 2026

Thadomal Shahani Engineering College | Mumbai University | C.G.P.A: 8.4/10.0

HSC - Computer Science Bifocal

2020 - 2022

SIES College of Arts, Science & Commerce, Maharashtra State Board | 81.50%
