

ABDUL SUBAN MOHD ISMAIL SHAIKH

Mumbai, Maharashtra | suban14925@gmail.com | +91 7208718064 | linkedin.com/in/suban-shaikh | github.com/Suban2108 | leetcode.com/u/suban-shaikh

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with hands-on experience building scalable web applications using React, Node, Express, MongoDB & Flask. Developed core modules of AI Healthcare Assistant. Proven in end-to-end product delivery (architecture to development), REST API development, real-time chat systems & payment integrations (Stripe, RazorPay), seeking full-stack, backend, or frontend roles to build impactful engineering solutions.

SKILLS

Languages: C/C++, Python, JavaScript, SQL, HTML5, CSS3

Backend: Flask, Node.js, Express.js, RESTful APIs

Frontend: React.js, Next.js, Redux, Bootstrap, Tailwind CSS, ShadCn UI, Progressive Web Apps (PWA)

Database: MySQL, MongoDB Atlas, PostgreSQL, Firebase Firestore, IndexedDB

Tools & Platforms: Git, GitHub, Firebase, Postman, JIRA

WORK EXPERIENCE

Frontend Developer Intern | Lonely Bag Food Rescue Pvt Ltd

Mar 2024 - Apr 2024

Mumbai, India

- Collaborated with senior engineers to build and deploy a cross-platform web application using Next.js, improving development efficiency by an estimated 25%.
- Contributed across the full development lifecycle — reducing feature iteration time by an estimated 20% — through ideation, architecture design, UI/UX, and coding.
- Implemented scalable state management and API integration practices, reducing 15+ recurring API-related issues and improving overall application reliability.
- Participated in code reviews, sprint planning, and Agile collaboration, contributing to 10+ successful sprint deliveries while improving team productivity and code quality.

PROJECTS

Seed Connect - Farmer-to-Retailer Connecting Platform | [GitHub](#)

Jun 2023 - Dec 2023

React.js, Node.js, Express.js, MongoDB Atlas, RazorPay, ShadCn UI, Google Map API

Web platform enabling direct transactions between farmers and retailers, eliminating intermediaries and improving pricing transparency to support fair crop trade for 500+ agricultural listings.

- Integrated map-based location tracking for farmer profiles, helping retailers identify nearby suppliers & improving product discovery and connectivity by an estimated 35%.
- Built a business onboarding & classification module, improving farmer/retailer search & discovery efficiency by 40% through structured business categorisation.
- Optimised cloud-based data management with MongoDB Atlas, improving application scalability and ensuring 99.9% data availability for marketplace operations.
- Built responsive and reusable UI components, improving user experience and reducing frontend development effort by 25%.

SwapCircle - Items Barter Platform | [GitHub](#)

Nov 2024 - Jan 2025

React.js, Node.js, Express.js, MongoDB Atlas, Tailwind CSS, ShadCn UI.

Web platform enabling private item bartering & donations within invite-only user circles, facilitating community exchanges & increasing user engagement by 35%.

- Engineered a private bartering platform supporting 200+ item exchanges and improving user engagement by 35%.
- Built a real-time one-to-one and group chat system integrated with barter & donation threads, enabling 250+ user interactions with reduced communication latency.
- Introduced a Karma points reward system that increased repeat participation by an estimated 30% and boosted community-driven exchanges across the platform.

MedBridge AI - AI Healthcare Assistant | [GitHub](#) | (Final Year Project)

May 2025 - May 2026

React.js, Vite, Flask, Python, OpenAI Whisper API, NLP, Pandas, NumPy, TensorFlow/Keras, PyTorch, PWA, IndexedDB

Multi-Model healthcare AI application enabling symptom-based disease prediction and AI chatbot assistance with 14+ language support and including PWA functionality with service worker caching and offline-ready behaviour.

- Built prediction and recommendation workflows using a medical dataset with 41 diseases, 132 symptoms, and ~4,920 records with 90% model accuracy.
- Designed and optimised REST APIs with fast response time (<50 ms for prediction and <100 ms for chatbot responses).
- Integrated multilingual voice input using OpenAI Whisper API (speech-to-Text and Text-to-Speech) with support for 14+ languages.
- Implemented Progressive Web App (PWA) features with service worker caching and IndexedDB to support offline and low-network usage.

CERTIFICATIONS & ACHIEVEMENTS

- Python for Everybody** - Coursera (2024) | Credential ID : QXOIR8SGUV3L
- Generative AI & Prompt Engineering** - Udemy (2025)
- Ranked among the **top 50% globally** in LeetCode Weekly Contests, solving **380+ algorithmic and data structure problems** across diverse coding domains.
- Earned 5★ in C++ on HackerRank for proficiency in algorithms and object-oriented programming.

EDUCATION

B.E. in Computer Engineering

2022 - 2026

Thadomal Shahani Engineering College | Mumbai University | C.G.P.A: 8.4/10.0

HSC - Computer Science Bifocal

2020 - 2022

SIES College of Arts, Science & Commerce, Maharashtra State Board | 81.50%
